Date:	2026-06-10
Engagement:	CEEFM Digital Growth -- 16-Week Engagement (CEEFM-PROP-001)
Status:	Engagement concluded

Section 1: What Was Built

1.1 Website -- ceefm.eu

Stack: Astro (static site generator), hosted on Hostinger. No CMS. Pages are .astro files. Source: C:/Users/User/ceefm-astro/

Pages live:

URL	Lang	Purpose
ceefm.eu/	EN	Main homepage
ceefm.eu/hu/	HU	Hungarian homepage
ceefm.eu/contact/	EN	Contact + assessment form
ceefm.eu/hu/kapcsolat/	HU	Hungarian contact
ceefm.eu/hospitality/	EN	Hospitality FM funnel page
ceefm.eu/residential/	EN	Residential FM funnel page
ceefm.eu/vendeglatas/	HU	Vendéglátás funnel page
ceefm.eu/lakopark/	HU	Lakópark funnel page

Technical infrastructure on the site:

Item	Location	Status
ProfessionalService JSON-LD schema	BaseLayout.astro lines 79-155	Live
robots.txt with AI crawler permissions (13 crawlers)	/public/robots.txt	Live
llms.txt (AI-first company summary)	/public/llms.txt	Live
Security headers (HSTS, CSP, X-Frame-Options)	/public/.htaccess	Live
Bilingual hreflang tags (en/hu)	BaseLayout.astro lines 58-60	Live
Canonical URLs on all pages	BaseLayout.astro line 55	Live
Open Graph + Twitter Card meta tags	BaseLayout.astro lines 63-77	Live
GA4 analytics (G-F2TLLLG2DH)	BaseLayout.astro lines 185-189	Live
Google Consent Mode v2	BaseLayout.astro lines 162-182	Live
Bing Webmaster verification	BaseLayout.astro line 54	Live
Cookie consent banner	BaseLayout.astro lines 196-237	Live
Hungarian legal imprint	Footer.astro	Live
LCP hero image preload (WebP)	BaseLayout.astro lines 27-46	Live
FAQPage JSON-LD schema (homepage)	index.astro extraJsonLd prop	Live
Wikidata entity (Q139592822)	sameAs in schema	Live
IndexNow integration	On rebuild/deploy	Live
Sitemap (all 8 pages)	/dist/sitemap-0.xml	Live

To deploy changes: edit .astro files, run `npm run build` in `ceefm-astro/`, upload the `dist/` folder to Hostinger via FTP or the Hostinger File Manager.

1.2 GEO Score Progression

The site started the engagement at 16/100 (Critical). It closes at 78/100 (Good) -- a 62-point improvement over 16 weeks.

Audit Date	Score	Band	Key Driver
March 2026	16/100	Critical	Baseline before engagement
April 3	29/100	Critical	Discovery audit, no fixes yet
April 22	47/100	Poor	llms.txt, hreflang, partial schema
April 30 (morning)	61/100	Fair	Full schema, legal imprint, security headers
April 30 (evening)	74/100	Fair (top)	Wikidata, IndexNow, Bing, GBP claim, LinkedIn
June 10	77/100	Good	Funnel pages, TikTok launch
June 11 (final)	78/100	Good	FAQPage schema, sitemap complete, llms.txt corrected

Final category scores (June 11):

AI Citability (25%)	78/100
Brand Authority (20%)	71/100
Content E-E-A-T (20%)	72/100
Technical GEO (15%)	92/100
Schema & Structured Data (10%)	83/100
Platform Optimization (10%)	76/100

1.3 Content Delivered

April 2026 content calendar: 12 strategic posts + 4 Friday amplification posts = 16 total. EN + HU versions.

Source: [content/april-calendar.md](#)

May 2026 content calendar: 12 strategic posts + 4 Friday amplification posts = 16 total. EN + HU versions. Weeks 6-9 (May 5-29). Source: [content/may-calendar.md](#)

Monthly reports delivered: April Executive Report, April Delivery Appendix, April Performance Analytics, May Action Plan -- all as MD and PDF.

GEO audit reports delivered: Initial, April 30 morning, April 30 evening, June 10 final, June 11 closing audit.

1.4 Cold Email Infrastructure

95 Budapest property management companies scored and tiered into Tier 1 (33), Tier 2 (37), Tier 3 (25).

Personalised EN + HU templates. 51 referral partner contacts identified. Script:

C:/Users/User/Projects/02-Clients/prospects/send_ceefm_outreach.py

Company	Email	Status	Notes
Budapest Residence	info@bpresidence.hu	Sent + FU	
Managerent Kft	info@managerent.hu	Sent + FU	
Florin Apart Hotel	info@florinaparthotel.hu	Sent + FU	

BQA Short Rent Kft	may@bqa-budapest.com	Sent

Vagabond Group	info@vagabondhospitality.com	Bounced	LinkedIn: William Hardy
Budapest Apartments	office@budapestapartments.com	Bounced	Drop -- no alternative

Delivered: 11. Bounced: 5 (4 with LinkedIn DM alternatives identified). Replies: 0 as of June 10. B2B cold outreach window is 4-6 weeks -- first signal window closes late June.

84 Tier 1/2 prospects remain in the scored database. Full list: deliverables/PROSPECT-LIST-WAVE-1.csv

1.5 LinkedIn Company Page

Optimised and posting 3x/week (Tue/Wed/Thu) since April 2026. Followers: 146 at end of April. Top post: April 1 company introduction. May calendar ran through May 29. June posts not drafted.

Action: Continue 3x/week cadence. Follow May calendar format. All posts need EN and HU versions.

1.6 TikTok

TikTok Business account created. One video uploaded: before-and-after room clean, no voiceover, two clips.

Action: Post 2-3 videos per month. Before-and-after work, behind-the-scenes maintenance, quick tips for property managers. Active TikTok profiles are AI entity credibility signals.

1.7 Other Deliverables

All in deliverables/:

File	What It Is
APARTHOTEL-OPERATING-STANDARD-V1-DRAFT.md	T4-category operating framework. Publish as PDF or site page to generate leads
COLD-OUTREACH-SEQUENCE-EN-HU.md	3-email sequence templates for future outreach waves
GBP-BUSINESS-DESCRIPTION-EN-HU.md	Ready-to-paste Google Business Profile description in EN and HU
GOOGLE-ADS-CAMPAIGN-PLAN-WEEK8.md	Full Google Ads plan using the 120,000 HUF credit
GOOGLE-ADS-RSA-COPY-EN-HU.md	Responsive Search Ad copy in EN and HU, ready to paste
LINKEDIN-COMPANY-PAGE-OPTIMISATION.md	LinkedIn page setup and optimisation guide
SEO-KEYWORD-RESEARCH-TOP-20.md	Top 20 search terms for Budapest facility management
VIDEO-SCRIPT-GOOGLE-ADS-EN-HU.md	Video ad scripts for the 12 Remotion video assets
outreach/CEEFM-full-outreach-playbook	Full operating guide for the outreach system

Section 2: What Is Live and How to Maintain It

2.1 Website

Host: Hostinger. Victor has login credentials.

Text changes: Edit ceefm-astro/src/data/content.ts. Run npm run build. Upload dist/ to Hostinger.

Add a page: Create .astro file in ceefm-astro/src/pages/. Import BaseLayout. Add URL to the sitemap config. Rebuild and upload.

Analytics: GA4 at analytics.google.com. Property ID: G-F2TLLG2DH.

Do not touch: BaseLayout.astro schema block -- a mistake breaks structured data sitewide. .htaccess security headers -- stable, no changes needed.

2.2 LinkedIn

Cadence: 3 posts per week. Tuesday / Wednesday / Thursday. 9:00 AM CEST.

Format: EN version and HU version per post. Under 1,300 characters. Hashtags go as the first comment after publishing.

Best-performing types: Industry insight with specific numbers. Behind-the-scenes operational detail. Before-and-after or quality-check stories.

What not to post: Generic FM statements, vague brand content, anything without a specific claim or story.

2.3 Cold Email System

Script: C:/Users/User/Projects/02-Clients/prospects/send_ceefm_outreach.py. Uses Gmail App Password. Full guide: deliverables/outreach/CEEFM-full-outreach-playbook-2026-05-15.md

1. Pick next 10-15 companies from CEEFM-client-outreach-queue-2026-05-15.csv (Tier 1 first, then Tier 2).
2. Confirm email addresses are correct.
3. Run the script in dry-run mode first to preview output.
4. Confirm each send interactively.
5. Watch office@ceefm.eu through late June for first replies (4-6 week window).

Section 3: Priority Action List

Listed in priority order. Items 1-3 are quick fixes under 2 hours combined that will move the GEO score from 78 to 81+.

Priority 1: Complete Google Business Profile Verification

Est. time: 10 minutes

The GBP postcard was mailed to the Ujlengyel registered address in early May.

1. Go to business.google.com
2. Log in with the account used to create the CEEFM GBP listing
3. Enter the postcard verification code
4. Confirm business details are accurate
5. Add the resulting Maps URL to the sameAs array in BaseLayout.astro (lines 128-131)

Impact: puts CEEFM on Google Maps, enables local knowledge panel, adds the critical entity signal AI Overview systems use for local queries. GEO score: +3 to +4.

Priority 2: Fix Homepage Stat: 10+ Years to 16 Years

Est. time: 5 minutes

The company was founded in 2010. That is 16 years as of 2026. The hero stat still reads "10+ Years Experience". The lms.txt correctly reads "16 years of operational experience".

Edit the hero component: change to "16 Years" or "Since 2010".

Priority 3: Fix Privacy Policy 404

Est. time: 2-3 hours

The contact form links to a privacy policy page that returns 404. This is a GDPR compliance issue for a company collecting personal data via web form.

Create /privacy-policy/ (English) and /adatvedelem/ (Hungarian) pages. A solicitor or GDPR template service can provide the required text.

Priority 4: Send LinkedIn DMs for Bounced Contacts

Est. time: 30 min (Victor's action)

Three companies bounced on email. LinkedIn DMs are the backup channel. Victor sends these from his personal LinkedIn. Message copy is in the outreach playbook.

Gabor Gerbner (Tarsashaz Management): [hu.linkedin.com/in/gabor-gerbner-18996775](https://www.linkedin.com/in/gabor-gerbner-18996775)
Reka Michaletzky (Walk Inn Apartments): [hu.linkedin.com/in/reka-michaletzky](https://www.linkedin.com/in/reka-michaletzky)
William Hardy (Vagabond Group): [linkedin.com/in/william-hardy-86518a50](https://www.linkedin.com/in/william-hardy-86518a50)

Priority 5: Continue Cold Outreach

Est. time: Ongoing

84 scored companies remain. Send 10-15 per wave. Space sends 1-2 weeks apart. Follow with one follow-up email 5-7 days after each initial send.

Priority 6: Add Meta Descriptions to Four Funnel Pages

Est. time: 30 minutes

/hospitality/, /residential/, /lakopark/, /vendeglatas/ have no meta description. Add a description prop to each page file in src/pages/. 130-155 characters each, with Budapest and a specific service claim.

Priority 7: Expand Funnel Page Content

Est. time: 4-6 hours

Hospitality page: ~370 words. Residential page: ~670 words. Each needs 800+ words with structured proof points for AI citation. Add a 3-5 question FAQ section per page with FAQPage schema.

Priority 8: Publish Aparthotel Operating Standard

Est. time: 2-3 hours

The 14-category framework is drafted at deliverables/APARTHOTEL-OPERATING-STANDARD-V1-DRAFT-2026-05-18.md. Convert to PDF and post as a site page (e.g. /aparthotel-standard) with a contact form. Generates qualified leads from Budapest aparthotel operators.

Priority 9: Create /about Page

Est. time: 3-4 hours

A dedicated /about URL significantly improves E-E-A-T signals. Include: Victor's name and professional background, founding story, Limehome relationship, 8-person team count, industry memberships.

Priority 10: Activate Google Ads

Est. time: After GBP verification

The 120,000 HUF Google Ads credit is pre-loaded and ready. Campaign plan: deliverables/GOOGLE-ADS-CAMPAIGN-PLAN-WEEK8.md. RSA copy: deliverables/GOOGLE-ADS-RSA-COPY-EN-HU.md.

Activate after GBP is verified so ad traffic lands on a site with a verified Maps listing.

Section 4: File Index

All engagement files: C:/Users/User/Projects/bridgeworks-workspace/clients/ceefm/

Path	Contents
CEEFM-HANDOVER-2026-06-10.md	This document

Website source code: C:/Users/User/ceefm-astro/

Cold email scripts: C:/Users/User/Projects/02-Clients/prospects/

Summary

The engagement delivered a 62-point GEO score improvement (16 to 78, Critical to Good), a bilingual Astro website with comprehensive AI-visibility infrastructure, two months of LinkedIn content, a scored prospect database of 95 companies, a live cold email pipeline with 11 emails delivered, TikTok account launch, and a 14-category Aparthotel Operating Standard framework.

Metric	Result
GEO Score at start	16/100 (Critical)
GEO Score at close	78/100 (Good)
Score improvement	+62 points over 16 weeks
Website pages live	8 (EN + HU)
LinkedIn posts delivered	32 (April + May calendars)
Prospects scored	95 companies
Cold emails delivered	11
Prospects remaining in queue	84
Deliverable documents	13+

The remaining path to 81+ GEO is three quick fixes: GBP verification, fixing the "10+ Years" homepage stat, and the privacy policy page. Combined effort: under 3 hours.

BridgeWorks remains available for future engagements.
